

## **ARAMEX Fuel Surcharges**

ARAMEX uses an index-based surcharge that is adjusted monthly for ARAMEX Express International services. The surcharge is based on the Rotterdam Jet Fuel Prices reported by the U.S. Department of Energy ([www.eia.doe.gov](http://www.eia.doe.gov)).

This will closely link the fuel surcharge to prevailing market prices for jet fuel in order to respond to changes in fuel prices in the marketplace and can be adjusted up to down. The following table illustrates the surcharge:

For the reported jet fuel pricing information, please see the U.S. Department of Energy's Spot Prices of Jet Fuel. ([Click here to download the U.S. Department of Energy's Spot Prices of Jet Fuel](#))

Fuel surcharge percentages and amounts, associated trigger points and methods of calculation are subject to change without notice. If the Fuel Surcharge rises above the maximum value or there are changes to the trigger points, the above tables will be updated.
