

Aramex Fuel Surcharges

Aramex uses an index-based surcharge that is adjusted monthly for Aramex Express International services. The surcharge is based on the Rotterdam Jet Fuel Prices reported by the U.S. Department of Energy (www.eia.doe.gov).

This will closely link the fuel surcharge to prevailing market prices for jet fuel in order to respond to changes in fuel prices in the marketplace and can be adjusted up to down.

For the reported jet fuel pricing information, please see the U.S. Department of Energy's Spot Prices of Jet Fuel. ([Click here to download the U.S. Department of Energy's Spot Prices of Jet Fuel](#))

Fuel surcharge percentages and amounts, associated trigger points and methods of calculation are subject to change without notice.
