Any shipments to Canada cities must be consigned to final destination (in example … YYZ / YYC / YVR / YHZ / YEG / YOW/YUL), but the master bills of lading must be consigned as mentioned in Bill instructions.

Advanced commercial information (ACI), must be submitted through the carrier for all freight shipments. Failure to submit ACI will result in monetary penalties with Canada customs. Penalties can range from USD 100.00 –USD 10,000.00 depending on the number of discrepant transactions handled by Aramex.

To avoid storage fees (5 days free storage) and speed up clearance, send copies of master Bills of lading / house bills of lading, commercial invoice & packing list, 5 days before arrival of shipments to Canadian destinations.

Approval required for personal effects shipments before sending to Canadian destinations. Custom clearance cannot be provided for personal effects. The consignee must arrange clearance themselves. YYZ can assist with the paperwork required.

Packing:
Please arrange fumigation if the shipment is in wooden packing, otherwise there will be penalty and additional charge also delay in clearance.

**Export to CAI:**
Pre-inspection is a must for shipments ex China mainland, which will takes 2 weeks. In order to expedite the export procedure, please note that shanghai commodity inspection and quarantine (SCIQ) has below procedures that requires you attention and action. Below are the important issues.
SCIQ will check all the sales contract/ original commercial invoice/original packing list/ original CIQ from shipper.
1) Check if the shipper/selling title match all docs
2) Check if contract no and origin match all docs
3) Check if all commodity name match all docs
4) Check if marks match all docs.
Any difference will cause second round inspection which will require additional time and delay.

**DG handling:** besides normal export clearance docs, MSDS, chemical report (matching ocean mode) is a must to carriers and customs. DG container booking need 10-14 days booking in advance. We should adhere to shipping liners requirements for packing and other necessary certificate.

**ENS requirement for export to EU**
ENS (entry summary declaration) go into effect midnight December 31, 2010 for cargo transiting to or through the European community.
Please also note within the scope of this EU regulation, Norway and Switzerland have the same status as an EU member state.
Ocean and air carriers are responsible for the timely electronic transmission of the ENS. Ocean carriers must transmit no later than 24 hours prior to loading of any vessel, and air carriers must transmit no later than 4 hours prior to arrival at the first port of entry in the EU.

**Following data requirements are needed for EN filing.**
- Full name and address of shipper (or EORI - economic operator registration and identification number)
- Full name and address of consignee (or EORI)
- Full name and address of notify party where goods are carried under a negotiable “to order” B/L (or EORI)
- Container number (if FCL)
Ocean Freight Operations Procedure

- Seal number (if FCL)
- Marks and numbers (if LCL)
- Full description of goods
- HS code at the 6-digit level (for AES purposes the full 10-digit schedule B number is required) number, type of package(s) and gross weight per package
- undangerous goods code (where applicable)

Consolidation:
Allowed but there should be a detailed manifest on each and every house B/L.

Pre-alerts must be sent to Djibouti office in advance to allow them to arrange the manifest with the sea liner with correct details in advance (shipper, consignee, address, telephone number, pieces, weight, Cubic measurement, container size, commodity descriptions and invoice value).

- Weight: any weight difference will automatically be subject to red light; physical cargo inspection
• Each item in the pallet must be marked with clear labels/ID stickers, as Djibouti Customs authorities might break down the pallets, so each item should be labeled individually even the package was shrink wrapped. If not then the entire lot will be held by customs, which will lead to fines and delays

• Labels must have these details: MBL number, HBL number, total number of container and destination port

• All licenses and registration in favor of EACS should be done as per rules and regulations

Service information:

Collect shipment: allowed.
Cash on delivery: not accepted

Please inform India office before you proceed with shipment, if this shipment not secured by destination and consignee doesn’t have account with Aramex to collect freight charges. Each shipment should include full shipment details including (shipper, consignee, address, telephone numbers, pieces, weight, cubic measurement, container size, commodity description and invoice value).

Contact destination to see if free domicile is available for your particular shipment. You must provide all of the following information:

S/line overseas agent’s complete details at port of departure has to be mentioned on the M/BL. Marks & numbers as per the package / container number / seal number. Payment terms has to be mentioned correctly (shipment pre-paid / charges collect).

Additional free detention period (if any) has to be mentioned on the M/BL & H/BL.

M/BL surrendered / if express release at load port, it should be mentioned on the M/BL. (please send the telex message by e-mail ...).

Payment terms: pre-paid preferred. The reason for CC shpts consignee has to bear extra charges like cc fees, currency adjustment factor (CAF), increase in exchange rate, remittance fees ETC ... to avoid these additional charges it is always preferable that M/BL is on pre-paid basis.

The M/BL & H/BL issuing date has to tally - the reason being while manifesting the IGM, shipping line also adds bill of lading issuing date and in case if the IGM has filed as per M/BL instead of H/BL, then, while amending the IGM most of the times shipping lines oversights to amend the B/L date and this causes lots of problems to consignee during clearance.

Surrender notice & additional detention notice has to be scanned along with the pre-alert as most of the times shipping lines here denies the receipt of the same from their principal office and delays the delivery order release.

Debit / credit notes needs to be scanned along with pre-alert copies - to avoid any confusion in selling & buying rates.
Note: Nhava Sheva/JNPT are the ports outside Bombay limit’s and are gateways for major internal container depots (ICD) like – Delhi / Jaipur / Nagpur / Ahmedabad / Hyderabad etc.

For any shipments with the final destination being outside Bombay, service confirmation must be taken before executing the shipment as we do not have services to all the places outside Bombay.

Very important —
**Inland container depot (ICD) for FCL cargo trans-shipment.**
Full container load (20’ or 40’) shipments from your origin to inland container depot (ICD) in transit via Nhava Sheva port to Mumbai / Madras or Cochin ports, the shipment gets offloaded at these particular trans-shipment port and the containers moved to the rail depot where as per the shipping line agreement with the rail or road transport authorities, the container is taken to the respective inland container depot (ICD) in India.

Kindly note in such shipment’s port of final destination, in example, shipments for ICD – Hyderabad or ICD – Bangalore via Nhava Sheva port, the master bills of lading should bear the **Hyderabad – GTSPL office address** or the **Bangalore GTSPL office address** and the place of delivery / final destination will be ICD Hyderabad or ICD Bangalore.

Very important —
**Prior to move any (LCL) shipment to inland container depot (ICD) in India, kindly check and confirm with the shipping line at origin, their counterpart (shipping line) at destination has service to that particular ICD in India.**

**Consolidation:-** allowed

We can also accept telex release. In this case, origin will have to provide us with the original house B/L “copy non-negotiable” to be used by customs authority at sea port for clearance.

**Pre-Alerts:** **THE MAIN MANDATORY PRE-ALERT IS ON FTS AS SOON AS VESSEL DEPARTS PORT OF LOADING ***

Please send e-mail to jktfreightopsimport@aramex.com, JKT cargo team must submit the inward manifest to shipping line at least 3 days prior vessel arrival. So pre-alert must be sent before at least 4 days prior vessel arrival and it must include copy of the following

**Original documents pre-alert:**

All original documents, master B/L, house B/L, commercial invoice, packing list, certificate of origin (if required by JKT cargo team for the clearance) must be sent to JKT cargo team at least 72 hours prior vessel arrival otherwise a penalty of USD 150.00 (no official receipt) will have to be paid to port authorities for the delay in submission of documents and the same will be billed back to origin.

**Required Documents**

Master B/L,
House B/L,
Commercial Invoice,
Packing list,
Certificate of Origin (if required)
Submitting late the inward manifest to customs will raise high charges (penalty) to do the amendment manifest (penalty amount could be more than USD 1000, with no official receipt) and the same will be billed back to origin. Also it will take 2 to 3 weeks and sometimes longer to do such amendment. By that time, demurrage and storage charges will also get accumulated. Failing to follow the above instructions, Aramex Indonesia will not be responsible for any penalty that might occur at time of clearance and the same will be billed back to the origin. Usually, the penalty imposed by customs authorities is very heavy.

**Shipments to Iran is only allowed to be sent to DXB and/or Jebel Ali where Aramex DXB will handle the re-exporting of these shipments once the thorough security check is completed. The procedure is as follows:**

1. Origin will send Shpt to DXB, with following Bill of lading instructions:<br>**MBL:** Should be consigned to Aramex DXB, and put "DXB in transit" in the handling information.<br>**HBL:** Should be consigned to the ultimate CNEE in Iran.<br>2. Once the Shpt arrives DXB and the documents handed over to Aramex DXB, it will be processed for re-exportation. This procedure might take 1-2 days as it’s controlled by DXB customs.<br>3. Required documents mentioned below should accompany the shipment

Knowing that this would mean extra cost and longer transit time, but Aramex DXB will offer a competitive standard re-exportation fee that will be debited to the origins.

In case a shipment is held by DXB customs for any reason, or Aramex DXB was asked to re-export it back to the origin, please note that the related charges would be debited back to the origin station.
Please inform Tehran office before you proceed with shipment, if this shipment not secured by destination and consignee doesn’t have account with Aramex to collect freight charges. **Service information:**

Collect shipment: allowed.
Cash on delivery: case by case

Please inform Amman office before you proceed with shipment, if this shipment not secured by destination and consignee doesn't have account with Aramex to collect freight charges.

Each shipment should include full shipment details including (shipper, consignee, address, telephone numbers, pieces, weight, cubic measurement, container size, commodity description and invoice value).

Contact destination to see if free domicile is available for your particular shipment.

**Procedures:**

As all SeaFreight shipments based on master bills of lading and house bills of lading, a cancellation for master B/L must be submitted with a new manifest stating details of house b/l. This procedure and the amended manifest must be performed and submitted to shipping line agent and Jordan customs department 5-7 days prior to vessel arrival to Aqaba port.

Consequently, after 48 hours of vessel departure from the loading port, the booking office must send a scanned copy of house and master bills of lading to us, in order to proceed with the needed amendment. In case if we did not submit the needed amendments, shipment will be treated as consigned to Aramex and we will face lots of additional procedures, expenses, delays, container demurrage and clients inconvenience.

All above amendments are needed because we don’t have the legal rights to endorse any bills Of lading consigned to Aramex.

**Shipments to other free zones:-**
If the shipment's final destination is the airport free zone, Zarqa free zone, Al-Hasan industrial Free zone, al Tajamouat industrial free zone, or any other free zone or industrial estate Facility in Jordan, the name of the free zone or industrial estate must be shown on the bill of lading.

**Shipments to Iraq or other neighboring countries**

All freight shipments destined to Iraq or to any neighboring countries must be stated with in-transit phrase, within the remarks or in the description column. Please bear in mind that shipping lines prohibits transporting goods in containers. As such, goods must be discharged in the port and stuffing on the truck will take place in the terminal.

House B/L - full set of original B/L (if not available copy).
Master B/L - full set of original bills of lading
Commercial invoice - original, certified by the chamber of commerce/industry and legalized the Jordanian embassy.
Packing list - original.
Certificate of origin - original, certified by the chamber of commerce/industry and legalized the Jordanian embassy.
In case of LC - letter of credit “all required documents must be provided.

**Legalization:**

(For both commercial invoice and certificate of origin)

A. If the cargo is moving as freight collect and is secured by destination, check with Amman to determine whether legalization will be required for the shipment. If the shipment is secured by origin and freight is collect, please ask shipper to check with consignee in Jordan to determine if legalization will be required for the shipment. If the shipper advises that legalization will not be required, make sure that you have those instructions in writing.

B. If the shipment is secured by origin and freight is prepaid, advise the shipper that legalization of documents is normally
required. If the shipper advises that legalization will not be required, make sure that you have those instructions in writing.

Certification:

(For both commercial invoice and certificate of origin)

There is an additional charge of 0.5% of total value (per document) if the commercial invoice and the certificate of origin is not certified by the origin chamber of commerce/industry. If moving freight collect, determine whether the 0.5% charge is greater or less than the cost of the certification and act accordingly. If moving freight prepaid, notify the shipper of this situation and have the shipper provide instructions in writing how they want to handle this.

Shipments to Aqaba special economic zone (ASEZA):

All freight shipments destined to the Aqaba special economic zone must show the final Destination on the house B/L and master B/L as "Aqaba special economic zone". You can no longer state "Aqaba free zone" as the final destination on any shipping documents. Please make sure that the consignee must be registered in the Aqaba special economic zone authority in order to be able to receive their shipments.

Service information:

Collect shipments: allowed.
Cash on delivery: accepted
Free domicile- yes ... but on condition to notify the value of goods in order for Beirut office to let the origin know of the exact amount of duty & taxes to be paid to customs and get approval on same.

Please inform Beirut office before you proceed with shipment, if this shipment not secured by destination and consignee doesn’t have account with Aramex to collect freight charges.
Each shipment should include full shipment details including (shipper, consignee, address, telephone numbers, pieces, weight, cubic measurement, container size, commodity description and invoice value).

For shipments to be sent on temporary basis - please refer to BEY sea freight for handling, rates & procedures.

For shipments destined to Beirut free zone - please refer to BEY logistics for handling, rates & procedures.
N.B – for personal effects shipments - please refer to: bey.seafreightteam@aramex.com
For the requirements especially if customs exemption is needed.

The following are regulations and documents necessary to clear personal effects shipments from Lebanese nationals permanently returning to Lebanon.

1. Must be a Lebanese national.
2. Must have residency outside Lebanon for at least 3 consecutive years.
3. Include a letter of permanent leave, prepared and legalized by the Lebanese embassy.
4. Include a detailed list of all items, prepared and legalized by the Lebanese embassy. This list must include the number of pieces, contents of each piece and the gross and net weights.
5. Consignee must be in Beirut when the goods arrive because we need to have the *original* passport in hand with a new entry seal to Lebanon.
6. New items will *not* be exempted from customs. The shipper should provide receipts for all personal effects that may appear to be new to prove that they are really used items.
7. Basic electrical appliances (such as refrigerators, microwaves, etc.) Must be shipped as one piece each since additional pieces will be considered additional items and will not be exempted.
8. Consignee must have in Lebanon a valid apartment rental lease or apartment owner register.
9. Consignee must provide a certificate from his local mayor in Lebanon certifying that he is or will be living at the address specified in item #8.
10. A commitment endorsed to Lebanese customs must be signed by the consignee stating that his personal effects being shipped will definitely be used at his address specified in item #8, and that he will not import any other personal effects within a minimum of 3 years.

Non-Lebanese citizens may also benefit from custom exemption providing they have in addition to items #4 - #9 above, a valid work permit, a valid residence and a work contract.

Please take note all of the above and make sure that its followed and properly prepared.

** Rules and regulations importing used cars:
1. Car must not be more than 8 years old.
2. Must provide original car registration book.
3. Must provide a legalized invoice (from chamber of commerce & industry and the Lebanese council or embassy).

In line with our continuous efforts to develop, audit and care for all customers and client’s (personal effect shipments) whether be it land/sea or air, kindly abide by the below set procedures for all your personal effects shipments into Lebanon:

**Origin procedures:**

1) Origin should check the packing process, and make sure that each item is packed properly and according to international procedures (specially glassware’s /paintings & antiques)
2) In case of weak packing, piece should be opened /inspected and if it needs to be repacked then we should do it after informing client.
3) Origin should take photos of all pieces before loading
4) Origin should take another photo of the container after loading
5) Origin should leave space for the customs inspector to go inside the container in case of inspection needed
6) Origin should put the fragile boxes on top of all pieces and mark them well

**Lebanon procedures and responsibilities:**

1) Destination must take photos upon the opening of the container and before inspection
2) Destination should take photos after the inspection
3) Consignee must be available upon inspection loading / unloading of his/her stuff
4) Consignee should be aware that no tips to be paid to any porters or aramex staff without informing aramex Lebanon
5) Aramex Lebanon, should have their own staff upon inspection in the presence of client, and also upon unloading at consignee's premises to make sure that everything was done according to procedures and clients' needs

**Legalization for personal effects:** for exemption inquiry, detailed packing list should be legalized from Lebanese embassy at origin. A supported letter as well stamped and signed from the embassy stating that cnee has stayed more than 3 years at subject country and wants to leave totally to Lebanon.

**Additional info:**

- Effective Feb 1st, 2002, all incoming shpts into BEY are subject to 10% vat applied on CIF value (cost of goods, insurance, freight charges, pickup charges if shpt on cc basis), on customs duties, on clearance & delivery, formalities, portage. Vat does not apply on legal stamps however.
- Customs duties in Lebanon is calculated based on the CIF value as well and not only the value of goods stated on the commercial invoice for FCA/fob shpts
- Electrical items, chemicals, cosmetics, ceramic tiles, etc...are subject to the inspection and approval of the IRI (Industrial Research Institute) that works and is backed up with a technical assistance agreement of bureau VERITAS worldwide and that approves or rejects goods conformity to Lebanese code of standards. The list of items subject to IRI is not yet finalized so kindly check with BEY sea freight in regard to that subject. Charges would be on case by case basis.
- For the import / export of food items, please refer to BEY sea freight for the required documents

In case of non-compliance to the above and the standards of ISPM # 15, the wpm will not be allowed to enter the country and will be re-exported back to origin or destroyed by Lebanese authorities.

**The implementation of this decree has been suspended by the Lebanese government until further notice**

Service information:

Export – routed order – yes
Import – prepaid – please see below

Please be informed that aramex Malaysia is not linked to a K4 (shipping manifest system) and will not be able to receive inbound LCL or FCL shipments by Oceanfreight. All stations must send the cargo on DTC basis if prepaid.

If on collect or LC (letter of credit) based export please provide us the details in advance in order for us to advise on how to consign the MBL (OBL)

Do be advised that as we are using a 3rd party to issue the K4 manifest to the shipping line, there will be a cost of USD 50.00 applicable for this job.

For customs clearance – we must be appointed by the client to process the customs paper work.

Single window registration at sea port

Customs at seaport has introduced new system for customs clearance called "single window".

Customers in Qatar will be required to register online at the Qatar Customs Online site for importing goods into Qatar. For registration, the client must login to www.ecustoms.gov.qa and authorize 'aramex' as the nominated clearing agent. aramex Commercial Registration number is 52034/1. The client must select the freight mode (Land, Sea or Air) Freight clearance option when authorizing aramex.

Once registration is completed, the client must provide aramex with their Customs Code which is necessary to clear shipments via the 'Single Window' system.

Qatar Customs are offering support if needed through their call center at 136, or through the following email address: callcenter@customs.gov.qa

To ease the clearance process, we recommend that to advise all suppliers to include the following information on the Commercial Invoice accompanying inbound shipments to Qatar:

1- Goods value and currency
2- Goods’ HS Code
3- Good’s clear description
4- Good’s country of origin
5- Consignee’s (recipient) full name and address
6- Commercial invoice number

The Commercial Invoice must be printed on the supplier's letterhead with all the information typed and not hand written.

DG shipment

Consignee has to arrange the approval from environment protection committee & Doha sea port (Qatar navigation) and we have to provide these documents to the co-loader before shipment arrival at Jebel Ali port. Co-loader will load the shipment from Jebel Ali to Doha only after getting these approvals. There will storage charges if we couldn't provide these approvals before arriving the shipment at Jebel Ali.

Arms, ammunition & explosives, radioactive materials, & all communication equipment: prior import permit from the relative ministry must be obtained. The carrier office at point of origin must have the written confirmation that Consignee has the necessary import permit(s) prior to shipping.

Human remains.

Pharmaceutical, cosmetics, chemical products along with importers companies (are to be registered in Saudi food & drug authority) prior to shipping: certificate from the health authorities in the country of export stating that the articles imported are used in the country of origin under the same trade name and composition, stating also the name of each product, its formula, date of manufacture, and the permit number of its manufacturer. And an approval from ministry of health is required as well to be obtained by consignee.

For more information refer to tact book regulations on commodities.

Agricultural insecticides: import permit required prior to shipping and proper packing that must indicate “agricultural insecticide & type of product” in the Arabic language very clearly. Also the following information must be indicated: trade name, date of manufacture, duration of activity, and net weight of the product. Non-compliance with all these requirements means the Saudi Arabian customs will refuse to allow its entry into the country.

Others - dangerous goods: prior permission from the Saudi customs & ministry of trade is required before forwarding of goods. The written approval of Saudi customs must accompany shipment. However, prior to shipping, consignee must submit to customs and to carrier, the import permit showing his correct name, address, telephone number and also the exact description of item(s), number of pieces and weight of the consignment, plus a copy of the carrier’s bill of lading that tallies identically with the import permit. For more information refer to tact book regulations on commodities.

Shippers can obtain (conformity certificate for goods exported to Saudi Arabia – SASO previously) certificates from the following quality check companies: Intertek, BVQ, SGS, TUV

Following items must have SASO attached to shp docs and shpt. If any of these arrive without SASO certificate, shipment will not be cleared. Contact destination for more information if needed.

- wireless communication equipment:
  - All wireless communication equipment’s are not allowed into the U.A.E. unless the consignee has acquired special permission (from TRA) to import such equipment’s.
  - Mobile telephones are not affected by this regulation.

- Agricultural products:
  - Agricultural products (plants, seed, seedlings, fertilizers, soil conditioners, pesticide) are not allowed into U.A.E. without an import license that has been issued by the ministry of agriculture & fisheries. It is the responsibility of the consignee in U.A.E. to make all arrangements to secure the appropriate license.
Agricultural products (plants and non-processed produce) are not allowed in to U.A.E. without a phytosanitary certificate.

Medicines, cosmetics & medical equipment’s - should be approved by the "Ministry of Health", it is the responsibility of the consignee in U.A.E. to obtain and provide approval from Ministry of Health.

**Food stuffs:** should approved by the municipality health section & ”Ministry of Health”, it is the responsibility of the consignee in U.A.E. to obtain and do the self-clearance.

**DGR goods:** DGR shpts and non DG chemicals, battery, cartridges & oil should be approved by environmental research and wildlife development agency (ERWDA), if cnee have the "import permit" for this commodity, aramex can take approval from ERWDA on behalf of cnee (MSDS is a must on this case). So please make sure material safety data sheet also should be with the shpt, in addition to the commercial docs. If MSDS is not available, then it is the responsibility of the consignee in U.A.E. to get/provide approval from "ERWDA".

Please note it is the sole responsibility of the shipper and consignee to ensure the above requirements are met. aramex’s responsibility is to make the shipper & cnee aware of the regulation.

**Service information:**

Collect Shipment: allowed
Cash on delivery: not accepted
DDU / DDP- yes (if same accepted by final destination customer)

Please inform Dubai office before you proceed with shipment, if this shipment not secured by destination and consignee doesn't have account with Aramex to collect freight charges.
Each shipment should include full shipment details including (shipper, consignee, address, telephone numbers, pieces, weight, cubic measurement, container size, commodity description and invoice value).

Contact destination to see if free domicile is available for your particular shipment. You must provide all of the following
information: commodity description, pieces, weight, cubic measurement or container size, invoice value and complete consignee name, address and telephone numbers.

**Consolidation:**
Allowed for FCL & LCL

Very important - the appropriate harmonized customs code must be shown on the invoice for each item listed on the invoice. Country of origin, quantity, weight and value should be separately provided for each HS code

**Health certificate**: original. Required only for shipments of foodstuffs. Must be issued by the appropriate government authority at origin.

Aramex must have all original documents prior to the vessel's arrival for pre arrival clearance.

**Legalization**: only for the duty exempted documents.

**Customs regulations**: 
All wireless communication equipment is not allowed into the U.A.E. unless the consignee has obtained special permission to import such equipment. Mobile telephones do not fall under this category.

If restricted items are imported without prior approval, they will be held at customs until the approval is obtained from the relevant ministry in the u.a.e.

A prior approval must be given by the u.a.e. department of health before pharmaceuticals can be imported to the u.a.e. the import permit must be attached to the freight upon the freight's arrival to the u.a.e. the permit is issued by the u.a.e. ministry of health. Shipments cannot be cleared if the permit is not attached to shipments of pharmaceuticals.

The consignee must secure the import permit and the product should be listed / registered with the ministry of health Abu Dhabi. The shipper should obtain a fax copy of the import permit from the consignee and is required to attach a copy to each piece of the shipment. If the cargo arrives without the permit attached, it will be held by the ministry of health until the permit is obtained.

Ata carnet / carnet de passage is acceptable for exhibition goods or tourist vehicles, notification should send to dxb in this regard prior to departure of the vessel with the copy of carnet de passage / ata carnet

**Additional information:**
Shipments destined to the Jebel Ali free zone requires an original packing list in addition to an original commercial invoice. Both these documents must show the country of origin of the goods and must show the harmonized customs code for each item. These documents do not need to be legalized.

For in bound tax exempted freight shipments to the U.A.E:

If the shipment is tax exempted and the consignee's address is not showing Dubai, then the
Shipment is to be held at origin and a message should be sent to DXBOC, requesting shipping instructions. You must include in your message, shipper details, consignee details, pieces, Weight, cubic meter or container size, commodity description and value of the shipment.
